

FARMHOUSE CIDERS

JK'S FARMHOUSE CIDERS ARE SLOWLY FERMENTED CONCOCTIONS MADE FROM OUR APPLES AND THE WILD YEAST ON THEIR SKINS. WE GROW, HARVEST AND PRESS THE APPLES RIGHT HERE ON OUR FARM.

A CIDER UNLIKE ANY OTHER. THAT IS WHAT MAKES JK'S THE ONES YOU YEARN TO SIP.

JK's Rosé - CO-OP 39

In 2008, Jim Koan took a gamble on buying the 'bud wood' for some 2,000 trees of a new varietal called Co-op 39, thus becoming the first large grower of the apple. Jim had learned of it while on a research committee studying newly developed varieties that had not yet been licensed (and so given just a code like Co-op 39). It was later named CrimsonCrisp™ for its deep red, almost purple skin, and its snappy flavor.

Distinguished by pink blossoms with red stamen, the trees are easy to recognize as soon as spring graces us here at Almar Orchards - *truly a beautiful sight to see!*
